

# Get more value from your healthcare dollars with a health savings account.

Take advantage of a health savings account (HSA) and start saving today.

## How does an HSA work?

An HSA is a personal savings account that allows you to set aside pre-tax dollars for current and future healthcare expenses for you and your dependents, even if they are not covered under your primary health plan. You are eligible to open an HSA if you are enrolled in an HSA-eligible high-deductible health plan.

For 2022, you choose an annual election amount, up to \$3,650 for individuals and \$7,300 for families. The money is placed in your account via payroll deduction, online banking transfer, or a direct contribution.

You can choose to use the money in your HSA to pay for current healthcare expenses or keep the funds in your account and watch your savings grow.

If you are 55 or over, you have the option to contribute an additional \$1,000 annually.

## Why should I enroll in an HSA?

High-deductible health plans typically have lower monthly premiums and greater out-of-pocket costs. An HSA helps ensure you have money set aside to pay for out-of-pocket healthcare expenses.

But an HSA is also a powerful investment vehicle and can be a smart addition to your retirement strategy. What makes an HSA such a great retirement investment tool? Simply put, money goes into an HSA tax-free, grows tax-free, and comes out tax free. That means you will never be taxed when you use HSA dollars for qualified medical expenses. No other investment account offers this benefit!

## How much can you potentially save for retirement?

Annual Contribution Over 25 Years	Tax Savings*	Balance at Retirement
\$600	\$4,050	\$30,668
\$2,400	\$16,200	\$122,672
\$3,650	\$24,650	\$186,564
\$7,300	\$49,275	\$373,128

## How do I use my HSA to pay for healthcare expenses?

You can use your *Card with a Heart* to pay your providers for eligible healthcare expenses, or pay with your personal funds and withdraw funds from your HSA to reimburse yourself for the expenses.

## How can I use my HSA to save for the future?

You can also use your HSA to save for retirement and any future healthcare expenses you might have. There are many investment options available to you, depending on your risk tolerance and life stage.

## Qualifying expenses

### What qualifies?

HSA funds can cover costs for:

- Copays, deductible payments, coinsurance
- Doctor office visits, exams, lab work, x-rays
- Hospital charges
- Prescription drugs
- Dental exams, x-rays, fillings, crowns, orthodontia
- Vision exams, frames, contact lenses, contact lens solution, laser vision correction
- Physical therapy
- Chiropractic care
- Medical supplies and first aid kits
- Over-the-counter medications
- COBRA premiums
- And much more...

### What doesn't qualify?

Certain expenses are not eligible, for instance:

- Expenses incurred prior to opening your HSA
- Cosmetic procedures or surgery
- Dental products for general health
- Personal hygiene products

*A comprehensive list of eligible expenses can be found in IRS Pub 502 at:*

<https://www.irs.gov/pub/irs-pdf/p502.pdf>

## Helpful hints

- You can change your election amount at any time during the plan year.
- You own the HSA, which means the money in the account is yours to keep and stays with you, even if you change medical plans or leave your employer.
- Remember, withdrawals for qualified healthcare expenses are never taxable.
- Be a savvy HSA consumer and ask about the cost of procedures and provider visits to ensure you are getting the best care at the best price.
- Save your receipts because the IRS may audit your HSA transactions.
- Unused funds roll over year to year and once your account balance reaches \$1,000 you have the option to invest your funds and accelerate your account savings.
- While your HSA funds are intended for healthcare expenses, once you reach 65 you have the option to use your account for any purpose, without penalty. You'll just owe income taxes on withdrawals for non-qualified expenses.
- The easiest way to manage your account is online at [BeWell.lanehealth.com](https://www.lanehealth.com)

\*For illustrative purposes. Savings calculations are based on a federal tax rate of 22%, a state tax rate of 5%, and an average interest rate of 5%. Your tax situation may be different. Consult a tax advisor.
